

	QUALITY POLICY	Document No.	PPNL-QMS-POL-001
		Issue Date	14-Oct-2020
		Revision No.	00

PADUA PETROLEUM NIGERIA LIMITED (PPNL) is an indigenous provider of an expanding range of services to the **Nigerian Oil** and Gas Industry including Procurement & Logistics, Project Management, Technical Consultancy, Inspection, Maintenance, Manpower Supply and Training Services. It is the prime policy for PPNL to execute its operations effectively and safely in accordance with clients' specifications and acceptable international standards in order to satisfy or exceed their expectations. This policy is appropriate to the PPNL's purpose and context of the organization and supports its strategic direction.

To implement the above objective, PPNL has established a Quality Management System that shall ensure adherence to client's requirements, compliance to codes, specifications as well as statutory and regulatory requirements. This policy provides framework for setting of quality objectives at corporate and functional levels. The quality management system is supported at all levels of the management, and all personnel are required to operate strictly within the provision of the Quality Management System. All clients' commitment as well as all services rendered by PPNL is recognized as expressions of quality. PPNL shall monitor its performance regularly and strive for continual improvement of its products and services and the QMS processes by constantly reviewing this policy.

It shall be the responsibility of the management of PPNL to ensure the implementation of the quality management system, quality policy and procedures. It shall also ensure the regular review of procedures to reflect changes in client's specifications and requirements, context of the organization, risk and opportunities, as well as international standards.

The policy shall be displayed conspicuously at strategic locations within the organization and at all PPNL's operational bases for easy access to all interested parties.

P. D. AJISAFE
Managing Director
